Warranty:

MWF Solutions warrants the original purchaser and not any other purchaser, or subsequent owner, that its Galvanized Metal Fence System is free from defects in materials or workmanship. This warranty applies to fence systems constructed entirely of components manufactured and/or supplied by MWF Solutions.

What is not covered under this warranty:

- Damage to the product caused by the property owner by use of landscape, gardening equipment, chemicals that may cause damage, water sprinklers with high mineral content and/or greywater/reclaimed water.
- Damage caused by adhesion of chicken wire, chain link mesh, welded wire or other similar substances to the product.
- Damage caused by allowing plant life of any sort to grow directly upon or in contact with any portion of the product or sap from trees.
- Any alteration to the product itself by the property owner including any on-site cutting or welding; and/or failure to follow any and all instructions provided by MWF Solutions at the time of sale to the original purchaser even if these instructions are not forwarded to the ultimate claimant under this warranty.
- When cutting and/or drilling the MWF Solutions' fence system components immediately seal the exposed surfaces by 1) removing all metal shavings from the cut area, 2) applying a zinc-rich primer to thoroughly to cover the cut edge and drilled hole, and after letting dry, 3) applying two (2) coats of custom finish spray paint matching fence color. Failure to seal exposed surfaces per steps 1-3 above will negate warranty.
- The topcoat chosen by the owner is to be applied immediately upon installation and as needed due to the environment. It is recommended the topcoat be reapplied between 5 and 10 years due to environment. The topcoat must be reapplied every 10 years maximum. Due to the environment, as chalking or topcoat deterioration becomes apparent, additional topcoat must be reapplied. If the topcoat chosen by the owner is not maintained this warranty is voided. MWF Solutions recommends using Sherwin Williams Pro Industrial Topcoat.
